Landlord Permission to Build Ramp System

Resident(s) Name:
Address:
City, State, Zip Code:

The resident(s) above has/have requested that Servants At Work, Inc. (SAWs) build a ramp system for the purpose of improving their ability to enter and exit their home. The resident(s) has/have mobility limitations that make it difficult or impossible to access their home via steps.

SAWs is a non-for-profit corporation comprised of volunteers all of whom have given releases of liability to us. SAWs has built thousands of ramp systems. No concrete or other means will permanently anchor the ramp system to the ground.

The ramp system will be built with pressure treated wood. It will be assembled with screws, bolts and lag screws. It will be built to comply with Americans Disability Act Guidelines. The ramp system can be dismantled and removed if you request it (note: no landscaping is provided upon removal).

In order for SAWs to build the ramp at the location above, we require permission from you, the property owner. Please complete the form below and return it in the pre-stamped envelope.

The undersigned represents and warrants to SAWs that (i) the undersigned is the owner or duly authorized agent of the owner of the property and is fully authorized to sign this Landlord Permission to Build Ramp System for the above address, and (ii) SAWs has my permission to build a ramp at this location as described above.
